Companion
by Minitab®

The tools and reporting you need to ensure product and process excellence.

Companion by Minitab® is a comprehensive platform for executing and reporting on process improvement projects. It includes an integrated desktop toolkit to complete projects and a web-based dashboard that instantly rolls up all project data.

From the start of each project through to the reporting of key metrics and financials, Companion lets you see the impact of your improvement program with automatic, up-to-the-minute summaries. Companion helps teams complete their projects faster and more consistently, while giving you and your stakeholders insight to make critical business decisions.

Companion deploys quickly—your entire organization can be up and running in a matter of days. Easy-to-customize roadmaps and templates ensure teams follow your company's methods and provide the information you need.

Companion is *the* solution for managing, understanding, and sharing the impact of your continuous improvement program.

Keep it Together

companion.minitab.com

Organize all the elements of your project in customizable roadmaps (including DMAIC, Kaizen, QFD, CDOV, PDCA, and Just Do It), all stored in one shareable project file.

The desktop application includes value stream mapping, Monte Carlo simulation, quality function deployment, brainstorming, FMEA, process mapping, and more than 100 other built-in tools and forms.

When teams follow standardized roadmaps and use the same tools, you ensure consistency across projects.

Project data flows up effortlessly to a centralized reporting structure to keep all stakeholders informed.

Know Your Bottom Line

Companion's dashboard gives you visibility into your entire program—it's easy to assess the progress of all projects, or just a subset.
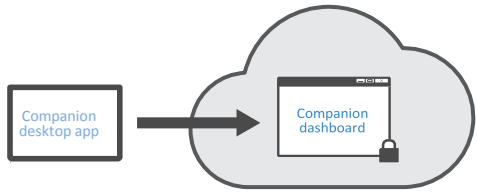

Monitor the KPIs you need to make important business decisions.

Search for, open, and explore projects to see detailed activities at the individual project level.

Dynamic reports give everyone in your company access to the information you want to share.

You can restrict access to sensitive projects and data to the appropriate people.

Increase Access and Reduce IT Demands

Centralized, web-based storage eliminates the need for on-site servers and backup systems.

Companion.minitab.com can be accessed from any Internet-connected computer, tablet, or mobile device.

Your projects, templates, and reports are stored securely in the cloud.

Automatic daily, weekly, and monthly backups safeguard your data using the latest methods.

System security is verified and tested by third-party experts.
