

# Minitab Engage™ Deployment Guide

This guide provides instructions for installing and licensing Minitab Engage.

**By installing Minitab Engage, you agree to the terms of the [License Agreement](#) and [Privacy Policy](#). If you do not agree to these terms, uninstall the software package. If you are deploying software to end users, you are accepting these terms on their behalf.**

You can use the command line to install Minitab Engage on the client computer. The following tables outline properties and switches that can be used to deploy Minitab Engage to your end-users.

## EXE Switch Table

Command Line Switch	Description
/exenoui	Required for a silent install. Use with appropriate MSI switch for modified end-user experience (e.g., /qn, /qb, /passive).

## MSI Switch Table (Common)

Command Line Switch	Description
/passive	Basic user interface, progress bar only
/qn	Quiet, no user interface
/qb	Basic user interface, the <b>Cancel</b> button will be active during installation
/qr	Reduced user interface, the <b>Cancel</b> button will be active during installation

## Property Table

Property	Accepted Values	Description
APPDIR		Specify a custom installation directory
ACCEPT_EULA	1	Required property. By specifying a value for this property, you accept the terms of the <a href="#">end-user license agreement</a> and <a href="#">privacy policy</a> .

Property	Accepted Values	Description
DISABLE_ANALYTICS	0 or 1	<p>With consent, Minitab collects application analytics to help us better understand our customers' needs. Examples of application analytics include:</p> <ul style="list-style-type: none"> <li>• Product information, including the types of files that are imported, the types and frequency of tools and commands, project characteristics, such as the amount of data and number of worksheets, and the frequency and duration of use.</li> <li>• Performance information about Minitab products and/or services and any issues you may experience while using them.</li> </ul> <p>Note: Minitab does not collect any user-entered data or statistical results.</p> <p><b>Settings:</b></p> <ul style="list-style-type: none"> <li>• To enable application analytics, enter 0</li> <li>• To disable application analytics, enter 1</li> </ul> <p>If you do not enter a value for this property now, you can do it later when you launch the application. If you are deploying software on behalf of your end users, these settings will apply to their installations:</p> <ul style="list-style-type: none"> <li>• 0 allows the end user to enable or disable application analytics on their computer</li> <li>• 1 automatically disables application analytics for all end users</li> </ul> <p>Note: These settings do not prevent Minitab from collecting other types of data from its websites and products, such as data necessary for managing licenses or accessing online Help. For more information, view our <a href="#">Privacy Policy</a>.</p>

## Command Line Details

1. You must use the /xenoui switch when you use /qn, /qb, or /passive.
2. Verify that command line switches are in correct order.
  - EXE switches must precede MSI switches.
  - MSI switches must precede MSI properties.

## Required Syntax

Use the following syntax: **productV.v.v.setup.exe**, where

- Lowercase **product** is the name of the software,
- Uppercase **V** indicates the major release number of the software; and
- Lowercase **v** (up to 3) indicates an update to the major release of the software.

For example: minitabengage6.3.1.2setup.exe [EXE Switch Table] [MSI Switch Table] [Property Table]

## Examples

---

**Note** The following examples do not contain line breaks.

---

### Install Minitab Engage silently:

```
productV.v.v.setup.exe /exenoui /qn ACCEPT_EULA=1
```

### Upgrade Minitab Engage silently:

```
productV.v.v.setup.exe /exenoui /qn ACCEPT_EULA=1
```

### Uninstall silently using the Minitab Engage product code:

```
msiexec /x {Product Code} /qn
```

Product Code Registry Location:

```
[HKEY_LOCAL_MACHINE\SOFTWARE\WOW6432Node\Microsoft\Windows\CurrentVersion\Uninstall\Minitab Engage V.v.v.v]
```

String: UninstallPath

## Group Policy Usage

The MSI in the GroupPolicy folder of the Mass Deployment Package should be used only for Group Policy deployment methods. Use the Group Policy MSIs in conjunction with repackaging tools to ensure that Properties are set correctly for the required configuration.
