Minitab Connect® 7.10.3

Table of Contents

1. New Features in Minitab Connect 7.10.3

- RestAPI Connector Enhancement - The RestAPI Connector now supports the Auth2.0 Authentication Mechanism. External Systems leveraging this Auth type can be supported in order to pull in data.

- Connect Dashboard - Added the ability to export the dashboard as a PDF.

- Alarm Management - The Alarm Management page provides authorized users the ability to quickly jump to the corresponding table or dashboard where the user created the alarm. This page also provides the ability to enable, disable, or delete the alarm.

2. Problems Resolved in Minitab Connect 7.10.3

Dashboard bugs
- Dashboard slicer presets get incorrectly set based upon other preset selections. (TT187701)
