

Minitab Engage® 6.7.1 Desktop Release

August 2026

Resolved Issues

Item 1

A confusing message appears when you try to close an unsaved project that has an open related document. (145069)

Item 2

Recovering a file can be difficult when you belong to multiple subscriptions. (145083)

Item 3

When you export a process map to PDF, some shape text might be cut off, and a vertical white line might appear. (289370)

Item 4

For some Monte Carlo simulations, an error message appears even though the equation is valid. (363738)
