Minitab Solution Center December 2025 Release

1. New Features in Minitab Web App

- Minitab AI summaries are now available for the following graphs:
  - Probability Plot
  - Tabulated Statistics
  - Bubble Plot
  - Scatterplot
- Large data values (-1e30, 1e30) are now allowed in worksheets.
- You can now fit a folded normal distribution in Nonnormal Capability Analysis and Nonnormal Capability Sixpack.

2. New Features in Minitab Dashboards

- You can now add Wafer plot and Variability Charts to Dashboards.
- Usability Enhancements were made, including:
  - The properties pane indicates when multiple items are selected.
  - The "Remap Data" label was updated to "Change Data Connection."
  - The page navigator is now available next to the Dashboard title in both Present and Edit modes.

3. Problem Resolved in Minitab Dashboards

Unintended behavior occurs when a user selects "Open Dialog" to modify an Individuals Chart. (305043)
