1. Introduction to Minitab Workspace® 1.3

Welcome to Minitab Workspace® 1.3! Our latest release offers many new features, including:

- Mind Maps - Use a mind map to visually organize related ideas and concepts. Mind maps help you come up with ideas quickly and creatively, so you can think about things in new and different ways.
- Financial Data Forms – The Financial Data and Financial Data Monthly Data Entry forms now include Gross and Net Savings and Implementation Costs fields.

Visit www.minitab.com for more information.

2. Known Problems and Workarounds

Item 1

Creating team members from Address Book on the Team Members & Roles form doesn't support 64-bit Outlook. (180074)

Workaround: Enter team members manually.

Item 2

The application crashes when user doesn't have permission to the location where the dictionary file is located. (183111)

```
%appdata%\Microsoft\Spelling\en-US\mtbqc.dic  
%localappdata%\minitab\Minitab Workspace\mapdictionary.dict
```

Item 3

Exporting a process map to PDF may crash if bold or italic characters are present. (182872)

Workaround: Remove bold and italic formatting before exporting to PDF.

Item 4

The desktop application may crash when there are many large images in a rich text box on a form. (182323)

Workaround: Divide the images up among multiple rich text boxes.

Item 5

The Monte Carlo Simulation's "Edit Model" page is slow to load and use when there are many equations in the model. (182400)

Item 6

When using a regional setting with a date format that does not follow the western calendar year, selecting a date using the calendar's date picker results in the date having the wrong year. (182136)

Workaround: Manually type the date instead of using the date picker.

Item 7

Exporting value stream maps to Word, PowerPoint, or PDF gives an error when a non-process shape exists to the right of the rightmost process shape. (181451)

Workaround: Turn off the Takt Time box or move all non-process shapes to the left or below the rightmost process shape.

Item 8

In some cases, pasting a brainstorm tool into a rich text box may cause the application to crash. (182792)

Item 9

Pasting a phase from a project with a Roadmap into a project without a Roadmap causes the application to crash. (182429)

Workaround: Paste the individual tools from the phase into the project without a Roadmap.

Item 10

Copying items on a form when using remote desktop causes a crash. (178344)

Item 11

On a form, add a row to a layout table that contains an optional section. Right-click the optional section and choose Insert>Row Below and the application will crash. (182384)

Item 12

The spell checker does not work for non-English default dictionaries in forms and brainstorms. (178764)

Item 13

Text with tabs or bullets pasted into a data table on a form causes the application to crash. (181352)

Item 14

On process maps and value stream maps, when the fill of a shape is a color and the font is set to white, the text can't be seen while in edit mode. (183145)
