

Prolink Release Notes

Version 5.1.17

QC-CALC Real-Time

1. Problems Resolved in 5.1.17

- **Metrologic Metrolog II & X4** - Improved the Metrolog driver so lines that were previously only Trace Field values can now also be characteristics, allowing the collection of data. (386691)
- **Metrologic Metrolog II & X4** - Updated the driver to handle the new file format created by Metrolog X4. (312602)

Landing Page

1. Problem Resolved in 5.1.17

- Corrected a licensing issue that could prevent eligible Power User customers from accessing QC-Mobile from the Landing Page. (387528)
