

# Minitab Simul8<sup>®</sup> March 2026

## New Features in Minitab Simul8 March 2026

### **Quick Build — A faster path from process to simulation**

Create simulations using just four tables of data and then let Simul8 automatically generate the model. Quick Build simplifies setup while guiding you through the core elements of a simulation.

### **Guided templates — Step-by-step manufacturing simulation**

Minitab Simul8 now includes a set of guided simulation templates designed to help teams model real-world manufacturing processes and evaluate improvement. Built-in guidance ensures results are easy to interpret and actionable.

## Problems Resolved in Minitab Simlu8 March 2026
