

## AI Transparency Notice

Effective Date: April 24, 2025 (v.2)

This AI Transparency Notice applies to the use of *optional* functionality that is powered by generative artificial intelligence in Minitab Solutions (collectively “AI Functionality”).

**Generative AI Functionality is turned ON by default  
and is available to all Authorized Users of the applicable Software.**

Only customer License Administrator(s) can disable the *optional* generative AI Functionality.

### **Overview.**

- The [Minitab Trust Center - Artificial Intelligence](#) contains information on the use of AI Functionality in Minitab Solutions.
- AI Functionality in Minitab Solutions utilizes Microsoft Azure AI. For more information, see [Microsoft Azure AI](#).

**Ethical and Legal Compliance.** Minitab is committed to the ethical use of AI and ensures that AI Functionality in Minitab Solutions comply with applicable laws and regulations.

License Administrator(s) and Authorized Users are responsible for ensuring that use of optional AI Functionality in Minitab Solutions complies with their (1) organization’s applicable AI policies, and (2) application of local, state, and international legal standards.

- **No Guarantee of Accuracy.** Minitab makes no representations or warranties regarding the reliability, completeness, or accuracy of any AI Functionality generated output. All AI Functionality generated output should be reviewed and verified with human oversight.
- **Limitations of AI Functionality.** Minitab does not guarantee that AI Functionality will perform without error, and results may vary depending on the data inputs, system settings, and other variables.

**NO LIABILITY.** MINITAB EXPRESSLY DISCLAIMS ANY LIABILITY FOR ACTIONS TAKEN BASED ON AI RESULTS OR OUTPUTS. FURTHER, MINITAB WILL NOT BE LIABLE FOR ANY DIRECT, INDIRECT, CONSEQUENTIAL, OR INCIDENTAL LOSSES OR DAMAGES OF ANY KIND ARISING FROM THE USE OR RELIANCE ON AI FUNCTIONALITY GENERATED CONTENT, WHETHER CAUSED BY ERRORS, OMISSIONS, OR FAILURES OF THE AI FUNCTIONALITY.
